OVER 10,000 TREES

We partnered with the Arbor Day Foundation to plant a tree for every piece sold from our green collections. That equals over 10,000 trees planted so far, which supports cleaner air and a healthier environment. We also teamed up with local partners for an urban planting in Orlando, and funded the planting of trees in the Withlacoochee Forest. Thanks to you, we are committed to growing that number and increasing our collective impact.

GREEN FLEET

100% Clean Driving

All of our delivery and semi-trucks run on natural gas, and we're in the process of transitioning to renewable natural gas. This will serve to redirect methane emissions away from the environment, repurposing it into clean, green energy. We're also moving towards electric, including the pre-order of Tesla semi-trucks.

SMART FACILITIES

Building a Better Way

Good design isn't just for our furniture. We have eight LEED-certified showrooms and counting, which stands for Leadership in Energy & Environmental Design. We also joined FPL's Solar Together program, subscribing to enough solar energy to power three showrooms.

RECYCLING EFFORTS

Sparing Our Landfills

We built state-of-the-art recycling centers in our warehouses to recycle almost everything that comes through our doors. That spares our landfills from unnecessary packaging waste like cardboard, Styrofoam, and plastic. We also recycle in all of our showrooms and corporate offices.
